

More Hill Physicians join Health Net Blue & Gold HMO network

Dear Colleagues,

We're pleased to inform you that Health Net has added 68 additional Primary Care Physicians (PCP) in the Hill Physicians Medical Group in the East Bay to the Health Net Blue & Gold HMO network.

The additional PCPs are located in Oakland, Berkeley and surrounding communities in Alameda and Contra Costa counties.

These Hill Physicians PCPs will be referring their UC Health Net Blue & Gold HMO patients to more than 500 Hill Physicians specialists that have admitting privileges to participating hospitals and other facilities. The participating hospitals include St. Rose Medical Center, Hayward; Washington Hospital, Fremont; Doctor's Medical Center, San Pablo; John Muir Medical Center, Walnut Creek; Children's Hospital, Oakland; San Ramon Regional Medical Center, San Ramon; and Valley Care Health System, Pleasanton.

Hill Physicians will not refer Health Net Blue & Gold patients to hospitals that are not participating in the Health Net Blue & Gold network, including Alta Bates Summit Medical Center, Eden Medical Center, San Leandro Hospital or Sutter Delta Medical Center.

To see the fully updated list of Hill Physicians in the Health Net Blue & Gold network, visit the Health Net Open Enrollment website at healthnet.com/uc.

If you wish to enroll in the Health Net Blue & Gold HMO with a Hill Physicians PCP, you may do so at any time until 5 p.m., November 23—even if you have already made Open Enrollment changes. Simply sign in to your account again and make the necessary changes. Be sure to confirm your changes.

If you have already enrolled in Health Net Blue & Gold and selected a different PCP but would like to have a Hill Physicians PCP, you can sign in and change the PCP only by clicking on "PCP" in the navigation menu on the left hand side of the Open Enrollment main menu. Again, be sure to confirm your changes.

If you have additional questions about this change, please contact the HR Benefits Group at x6403 or benefits@lbl.gov
